GALLUP POLL SOCIAL SERIES: WORK AND EDUCATION

-- FINAL TOPLINE --

Timberline: 927935
G: 870
Princeton Job #: 11-08-016

Jeff Jones, Lydia Saad
August 11-14, 2011

Note: Q.7, 27-34 should be cited as a *USA Today*/Gallup poll.

Results are based on telephone interviews conducted August 11-14, 2011 with a random sample of –1,008— adults, aged 18+, living in all 50 U.S. states and the District of Columbia.

For results based on the total sample of national adults, one can say with 95% confidence that the margin of error is ± 4 percentage points.

For results based on the sample of –495—national adults in Form A and –513—national adults in Form B, the maximum margins of sampling error are ± 6 percentage points.

For results based on the sample of –886— registered voters, the maximum margin of sampling error is ± 4 percentage points.

For results based on the sample of –489—adults employed full- or part-time, the maximum margin of sampling error is ± 6 percentage points.

For results based on the sample of –221—parents with children in Kindergarten through Grade 12, the maximum margin of sampling error is ± 8 percentage points.

For results based on the sample of –485—men, the maximum margin of sampling error is ± 6 percentage points.

For results based on the sample of –523—women, the maximum margin of sampling error is ± 6 percentage points.

Interviews are conducted with respondents on landline telephones and cellular phones, with interviews conducted in Spanish for respondents who are primarily Spanish-speaking. Each sample includes a minimum quota of 400 cell phone respondents and 600 landline respondents, with additional minimum quotas among landline respondents by region. Landline numbers are chosen at random among listed telephone numbers, cell phone numbers are selected using random-digit dial methods. Landline respondents are chosen at random within each household on the basis of which member had the most recent birthday.

Samples are weighted by gender, age, race, Hispanic ethnicity, education, region, adults in the household, and phone status (cell phone only/landline only/both, having an unlisted landline number, and being cell phone mostly). Demographic weighting targets are based on the March 2010 Current Population Survey figures for the age 18+ non-institutionalized population living in U.S. telephone households. All reported margins of sampling error include the computed design effects for weighting and sample design.

In addition to sampling error, question wording and practical difficulties in conducting surveys can introduce error or bias into the findings of public opinion polls.

6. Do you approve or disapprove of the way Barack Obama is handling -- [RANDOM ORDER]?

2011 Aug 11-14

(sorted by "approve")

	Approve	Disapprove
Terrorism	53	40
Foreign affairs	42	51
Education	41	50
The situation in Afghanistan	38	55
Creating jobs	29	65
The economy	26	71
The federal budget deficit	24	71
