GALLUP POLL SOCIAL SERIES: WORK AND EDUCATION

-- FINAL TOPLINE --

Timberline: 937008
H: 304
Princeton Job #: 12-08-011

Jeff Jones, Lydia Saad
August 9-12, 2012

Results are based on telephone interviews conducted August 9-12, 2012 with a random sample of **-1,012—**adults, aged 18+, living in all 50 U.S. states and the District of Columbia.

For results based on the total sample of national adults, one can say with **95%** confidence that the margin of error is **±4** percentage points.

For results based on the sample of **-492—**adults employed full- or part-time, the maximum margin of sampling error is **±6** percentage points.

For results based on the sample of **-236—**parents with children in Kindergarten through Grade 12, the maximum margin of sampling error is **±8** percentage points.

For results based on the sample of **-514—**men, the maximum margin of sampling error is **±6** percentage points.

For results based on the sample of **-498—**women, the maximum margin of sampling error is **±6** percentage points.

Interviews are conducted with respondents on landline telephones and cellular phones, with interviews conducted in Spanish for respondents who are primarily Spanish-speaking. Each sample includes a minimum quota of 400 cell phone respondents and 600 landline respondents, with additional minimum quotas among landline respondents by region. Landline numbers are chosen at random among listed telephone numbers, cell phone numbers are selected using random-digit dial methods. Landline respondents are chosen at random within each household on the basis of which member had the most recent birthday.

Samples are weighted by gender, age, race, Hispanic ethnicity, education, region, adults in the household, and phone status (cell phone only/landline only/both, having an unlisted landline number, and being cell phone mostly). Demographic weighting targets are based on the March 2011 Current Population Survey figures for the age 18+ non-institutionalized population living in U.S. telephone households. All reported margins of sampling error include the computed design effects for weighting and sample design.

In addition to sampling error, question wording and practical difficulties in conducting surveys can introduce error or bias into the findings of public opinion polls.

14. *(Asked of adults who are employed full or part-time)* Next, please indicate whether you are worried or not worried about each of the following happening to you, personally, in the near future. How about – [ITEMS A-D ROTATED, ITEM E READ LAST]?

BASED ON --492-- ADULTS EMPLOYED FULL OR PART-TIME

2012 Aug 9-12

(sorted by "worried")

	Worried	Not worried
That your benefits will be reduced	40	58
That your wages will be reduced	28	71
That you will be laid off	28	71
That your hours at work will be cut back	26	73
That your company will move jobs to countries overseas	11	87
