### DAILY ELECTION TRACKING TOPICAL QUESTIONS – OCTOBER-NOVEMBER 2012

#### -- FINAL TOPLINE --

Timberline: 937080

H: 349

Jeff Jones, Lydia Saad

October 1-November 5, 2012

---

**Results are based on telephone interviews conducted October 1-November 4, 2012, on the Gallup Daily Election Tracking Poll, with a daily random sample of -500-- adults, aged 18+, living in all 50 U.S. states and the District of Columbia.**

Interviews are conducted with respondents on landline telephones and cellular phones, with interviews conducted in Spanish for respondents who are primarily Spanish-speaking. Each daily sample of 500 national adults includes a minimum quota of 250 cell phone respondents and 250 landline respondents, with additional minimum quotas among landline respondents by region. Landline numbers are chosen at random among listed telephone numbers, cell phone numbers are selected using random-digit dial methods. Landline respondents are chosen at random within each household on the basis of which member had the most recent birthday.

Samples are weighted by gender, age, race, Hispanic ethnicity, education, region, adults in the household, phone status (cell phone only/landline only/both, having an unlisted landline number, and cell phone mostly) and population density. Demographic weighting targets are based on the March 2011 Current Population Survey figures for the age 18+ U.S. population. All reported margins of sampling error include the computed design effects for weighting.

In addition to sampling error, question wording and practical difficulties in conducting surveys can introduce error or bias into the findings of public opinion polls.

#### CANDIDATE STRENGTHS AND PERSONAL FINANCES

**Results are based on telephone interviews conducted October 22-23, 2012, on the Gallup Daily election tracking survey, with a random sample of -1,065-- adults, aged 18+, living in all 50 U.S. states and the District of Columbia.**

For results based on the total sample of national adults, one can say with 95% confidence that the margin of error is  $\pm 4$  percentage points.

3. Next, we are interested in how people's financial situation may have changed. Would you say that you are financially better off now than you were a year ago, or are you financially worse off now?

	Better off	Worse off	Same (vol.)	No opinion		Better off	Worse off	Same (vol.)	No opinion
