# Gallup® Daily Tracking

#### Questions and Methodology

The subsequent pages list the questions consistently included in Gallup Daily tracking: an unprecedented survey of 1,000 U.S. adults each day, 350 days per year, covering political, economic, and wellbeing topics. Individuals can analyze results for each question separately or cross tabulate them with other items. Gallup reports the Gallup Daily tracking findings on <a href="Gallup.com">Gallup.com</a>. In many cases, Gallup reports findings in Gallup Daily three-day rolling averages; weekly, monthly, quarterly, and yearly aggregates; and by region and state, as appropriate. Gallup also routinely incorporates additional questions into Gallup Daily tracking on a short-term basis. These extra questions cover topical issues, including election voting intentions and views of events in the news.

### **Politics**

# Obama Job Approval

Do you approve or disapprove of the way Barack Obama is handling his job as president?

# **Economy**

#### **Economic Conditions**

How would you rate economic conditions in this country today — as excellent, good, only fair, or poor?

#### **Economic Outlook**

Right now, do you think that economic conditions in this country as a whole are getting better or getting worse?

#### Job Creation Index

Now thinking more generally about the company or business you work for, including all of its employees. Based on what you know or have seen, would you say that, in general, your company or employer is hiring new people and expanding the size of its workforce; not changing the size of its workforce; or letting people go and reducing the size of its workforce?

### **Consumer Spending**

We'd like you to think about your spending yesterday, not counting the purchase of a home, motor vehicle, or your normal household bills. How much money did you spend or charge yesterday on all other types of purchases you may have made, such as at a store, restaurant, gas station, online, or elsewhere?

# **Employment**

Thinking about your work situation over the past seven days, have you been employed by an employer — even minimally like for an hour or more — from whom you receive money or goods? (This could be for one or more employers.)

In a typical week (seven days), how many hours do you work for an employer?

Again thinking about the last seven days, were you self-employed, even minimally like for an hour or more? This means working for yourself, freelancing, or doing contract work, OR working for your own or your family's business? Self-employment also includes fishing, doing farm work, or raising livestock for either your own or your family's farm or ranch.

In a typical week (seven days), how many hours do you work as a self-employed individual?

Do you want to work 30 hours or more per week?

Do you think that in the next four weeks you will have a job that requires you to work 30 hours or more per week, or not?

In the past four weeks, have you actively been looking for employment? "Actively looking" means applying for jobs, searching for jobs, and the like.

Would you have been able to begin work had you been offered a job within the last four weeks?

Do you think that in the next four weeks you will have a job?

How many weeks have you been actively looking for employment?

#### Personal Finances

Are you satisfied or dissatisfied with your standard of living, all the things you can buy and do?

Right now, do you feel your standard of living is getting better or getting worse?

Do you agree or disagree with the following statement? "You are watching your spending very closely."

Would you be able right now to make a major purchase, such as a car, appliance, or furniture, or pay for a significant home repair if you needed to?

At this time, are you cutting back on how much money you spend each week, or not?

Are you feeling pretty good these days about the amount of money you have to spend, or not?

Did you worry yesterday that you spent too much money, or not?

Do you agree or disagree with the following statement? "You have more than enough money to do what you want to do."

Do you have enough money to buy the things you need, or not?

Are you feeling better about your financial situation these days, or not?

# Wellbeing

(Conducted for the Gallup-Healthways Well-Being Index)

#### Life Evaluation Index

Please imagine a ladder with steps numbered from zero at the bottom to 10 at the top. The top of the ladder represents the best possible life for you and the bottom of the ladder represents the worst possible life for you. On which step of the ladder would you say you personally feel you stand at this time?

On which step do you think you will stand about five years from now?

## Physical Health Index

Do you have any health problems that prevent you from doing any of the things people your age normally can do?

During the past 30 days, for about how many days did poor health keep you from doing your usual activities?

# Methodology

Gallup daily tracking methodology relies on love interviewers and dual-frame telephone sampling (which includes random-digit-dial (RDD) list-assisted landline phone as well as RDD cellular phone sampling to reach those in cellphone-only households) and uses a multi-call design to reach respondents not contacted on the initial attempt. Gallup interviewers employ a "most recent birthday" selection method for choosing adult respondents within a landline phone household. Gallup daily tracking includes Spanish-language interviews for Spanish-speaking respondents and interviews in Alaska and Hawaii.

The data are weighted daily to account for unequal selection probability and nonresponse by sample frame. The weights also adjust for number of adults in the landline phone household and unequal selection probability because of dual-telephone-user status. Post-stratification weights are then constructed to compensate for nonrandom nonresponse among demographic groups using targets from the Centers for Disease Control and Prevention's National Health Interview Survey for telephone status and targets from the U.S. Census Bureau for age, sex, region, gender, education, ethnicity by race, and population density. The resulting sample represents an estimated 95% of all U.S. households.

Data that are summarized at the state and Metropolitan Statistical Area (MSA) district level are weighted at each of these levels twice per year for states or once per year for MSAs to ensure that samples are representative of these areas.
