GALLUP POLL SOCIAL SERIES: HEALTH AND HEALTHCARE

-- FINAL TOPLINE --

Timberline: 937008
HR: 795
Princeton Job #: 13-11-020

Jeff Jones, Lydia Saad
November 7-10, 2013

Results are based on telephone interviews conducted November 7-10, 2013 with a random sample of **-1,039—** adults, aged 18+, living in all 50 U.S. states and the District of Columbia. For results based on this sample of national adults, one can say with 95% confidence that the margin of error is **±4** percentage points.

For results based on the sample of **-562—** men, the maximum margin of sampling error is **±5** percentage points.

For results based on the sample of **-477—** women, the maximum margin of sampling error is **±6** percentage points.

Interviews are conducted with respondents on landline telephones and cellular phones, with interviews conducted in Spanish for respondents who are primarily Spanish-speaking. Each sample of national adults includes a minimum quota of 50% cell phone respondents and 50% landline respondents, with additional minimum quotas by region. Landline and cell phone telephone numbers are selected using random digit dial methods. Landline respondents are chosen at random within each household on the basis of which member had the most recent birthday.

Samples are weighted to correct for unequal selection probability, non-response, and double coverage of landline and cell users in the two sampling frames. They are also weighted to match the national demographics of gender, age, race, Hispanic ethnicity, education, region, population density, and phone status (cell phone-only/landline only/both and cell phone mostly). Demographic weighting targets are based on the March 2012 Current Population Survey figures for the aged 18 and older U.S. population. Phone status targets are based on the July-December 2011 National Health Interview Survey. Population density targets are based on the 2010 census. All reported margins of sampling error include the computed design effects for weighting.

In addition to sampling error, question wording and practical difficulties in conducting surveys can introduce error or bias into the findings of public opinion polls.

35. How do you think each of the following presidents will go down in history -- as an outstanding president, above average, average, below average, or poor? [RANDOM ORDER]

<i>2013 Nov 7-10</i> <i>(sorted by "outstanding/above average")</i>	<u>Outstanding/ above average</u>	<u>Average</u>	<u>Below average/ poor</u>
John F. Kennedy	74	19	3
Ronald Reagan	61	27	10
Bill Clinton	55	29	15
Dwight Eisenhower	49	36	3
Barack Obama	28	31	40
George H.W. Bush	27	48	22
Jimmy Carter	23	37	35
George W. Bush	21	36	43
Lyndon Johnson	20	46	22
Gerald Ford	16	56	20
Richard Nixon	15	27	52

FULL TRENDS:

A. Barack Obama

	<u>Out- standing</u>	<u>Above average</u>	<u>Average</u>	<u>Below average</u>	<u>Poor</u>	<u>No opinion</u>
2013 Nov 7-10	6	22	31	18	22	1
2012 Feb 2-5	10	28	26	17	18	1

B. George W. Bush, president from 2001-2009

	<u>Out- standing</u>	<u>Above average</u>	<u>Average</u>	<u>Below average</u>	<u>Poor</u>	<u>No opinion</u>
2013 Nov 7-10	3	18	36	20	23	1
