GALLUP POLL SOCIAL SERIES: ENVIRONMENT

-- FINAL TOPLINE --

Timberline: 937008
HR: 939
Princeton Job #: 14-03-003

Jeff Jones, Lydia Saad
March 6-9, 2014

Results are based on telephone interviews conducted March 6-9, 2014 with a random sample of **-1,048—**adults, aged 18+, living in all 50 U.S. states and the District of Columbia. For results based on this sample of national adults, the margin of sampling error is **±4** percentage points at the 95% confidence level.

For results based on the sample of **-535—**national adults in Form A and **-513—**national adults in Form B, the margins of sampling error are **±6** percentage points.

Interviews are conducted with respondents on landline telephones and cellular phones, with interviews conducted in Spanish for respondents who are primarily Spanish-speaking. Each sample of national adults includes a minimum quota of 50% cell phone respondents and 50% landline respondents, with additional minimum quotas by region. Landline and cell phone telephone numbers are selected using random digit dial methods. Landline respondents are chosen at random within each household on the basis of which member had the most recent birthday.

Samples are weighted to correct for unequal selection probability, non-response, and double coverage of landline and cell users in the two sampling frames. They are also weighted to match the national demographics of gender, age, race, Hispanic ethnicity, education, region, population density, and phone status (cell phone-only/landline only/both and cell phone mostly). Demographic weighting targets are based on the March 2013 Current Population Survey figures for the aged 18 and older U.S. population. Phone status targets are based on the January-June 2013 National Health Interview Survey. Population density targets are based on the 2010 census. All reported margins of sampling error include the computed design effects for weighting.

In addition to sampling error, question wording and practical difficulties in conducting surveys can introduce error or bias into the findings of public opinion polls.

7. *(Asked of a half sample)* Next, I'm going to read a list of problems facing the country. For each one, please tell me if you personally worry about this problem a great deal, a fair amount, only a little, or not at all? First, how much do you personally worry about -- [A-L READ IN RANDOM ORDER, M READ, N-O READ IN RANDOM ORDER]?

BASED ON -513-- NATIONAL ADULTS IN FORM B

<i>2014 Mar 6-9</i> <i>(sorted by "a great deal")</i>	Great deal	Fair amount	Only a little/ not at all
The economy	59	29	11
Federal spending and the budget deficit	58	22	20
The availability and affordability of health care	57	20	23
Unemployment	49	28	23
The size and power of the federal government	48	20	31
The Social Security system	46	29	24
Hunger and homelessness	43	33	23
Crime and violence	39	31	29
The possibility of future terrorist attacks in the U.S.	39	24	37
The availability and affordability of energy	37	30	33
Drug use	34	29	37
Illegal immigration	33	24	42
The quality of the environment	31	35	34
Climate change	24	25	51
Race relations	17	26	56
