HR: 939
Princeton Job #: 14-03-003

Jeff Jones, Lydia Saad
March 6-9, 2014

Results are based on telephone interviews conducted March 6-9, 2014 with a random sample of **-1,048—**adults, aged 18+, living in all 50 U.S. states and the District of Columbia. For results based on this sample of national adults, the margin of sampling error is **±4** percentage points at the 95% confidence level.

For results based on the sample of **-535—**national adults in Form A and **-513—**national adults in Form B, the margins of sampling error are **±6** percentage points.

Interviews are conducted with respondents on landline telephones and cellular phones, with interviews conducted in Spanish for respondents who are primarily Spanish-speaking. Each sample of national adults includes a minimum quota of 50% cell phone respondents and 50% landline respondents, with additional minimum quotas by region. Landline and cell phone telephone numbers are selected using random digit dial methods. Landline respondents are chosen at random within each household on the basis of which member had the most recent birthday.

Samples are weighted to correct for unequal selection probability, non-response, and double coverage of landline and cell users in the two sampling frames. They are also weighted to match the national demographics of gender, age, race, Hispanic ethnicity, education, region, population density, and phone status (cell phone-only/landline only/both and cell phone mostly). Demographic weighting targets are based on the March 2013 Current Population Survey figures for the aged 18 and older U.S. population. Phone status targets are based on the January-June 2013 National Health Interview Survey. Population density targets are based on the 2010 census. All reported margins of sampling error include the computed design effects for weighting.

In addition to sampling error, question wording and practical difficulties in conducting surveys can introduce error or bias into the findings of public opinion polls.

22. Thinking about what is said in the news, in your view is the seriousness of global warming -- [ROTATED: generally exaggerated, generally correct, or is it generally underestimated]?

	<u>Generally exaggerated</u>	<u>Generally correct</u>	<u>Generally underestimated</u>	<u>No opinion</u>
2014 Mar 6-9	42	23	33	2
2013 Mar 7-10	41	24	33	2
2012 Mar 8-11	42	24	31	3
2011 Mar 3-6	43	26	29	3
2010 Mar 4-7	48	24	25	3
2009 Mar 5-8	41	29	28	2
2008 Mar 6-9	35	33	29	2
2007 Mar 11-14	33	29	35	4
2006 Mar 13-16	30	28	38	4
2005 Mar 7-10	31	29	35	5
2004 Mar 8-11	38	25	33	4
2003 Mar 3-5	33	29	33	5
2002 Mar 4-7	31	32	32	5
2001 Mar 5-7	30	34	32	4
1997 Nov 6-9 ^	31	34	27	8

^ Based on half sample.

23. Just your impression, which one of the following statements do you think is most accurate – most scientists believe that global warming is occurring, most scientists believe that global warming is NOT occurring, or most scientists are unsure about whether global warming is occurring or not?

	<u>Is occurring</u>	<u>Not occurring</u>	<u>Unsure</u>	<u>No opinion</u>
2014 Mar 6-9	60	8	29	3
2013 Mar 7-10	62	6	28	4
2012 Mar 8-11	58	7	32	3
2011 Mar 3-6	55	8	33	4
2010 Mar 4-7	52	10	36	2
2008 Mar 6-9	65	7	26	3
2006 Mar 13-16	65	3	29	3
2001 Mar 5-7	61	4	30	5
1997 Nov 21-23	48	7	39	6
