**GALLUP POLL SOCIAL SERIES:
VALUES AND BELIEFS**

-- FINAL TOPLINE --

Timberline: 937008
IS: 010
Princeton Job #: 14-05-006

Jeff Jones, Lydia Saad
May 8-11, 2014

Results are based on telephone interviews conducted May 8-11, 2014 with a random sample of **-1,028—**adults, aged 18+, living in all 50 U.S. states and the District of Columbia. For results based on this sample of national adults, the margin of sampling error is ± 4 percentage points at the 95% confidence level.

For results based on the sample of **-518—**national adults in Form A, the margin of sampling error is ± 5 percentage points.

For results based on the sample of **-510—**national adults in Form B, the margins of sampling error is ± 5 percentage points.

Interviews are conducted with respondents on landline telephones and cellular phones, with interviews conducted in Spanish for respondents who are primarily Spanish-speaking. Each sample of national adults includes a minimum quota of 50% cell phone respondents and 50% landline respondents, with additional minimum quotas by region. Landline and cell phone telephone numbers are selected using random digit dial methods. Landline respondents are chosen at random within each household on the basis of which member had the most recent birthday.

Samples are weighted to correct for unequal selection probability, non-response, and double coverage of landline and cell users in the two sampling frames. They are also weighted to match the national demographics of gender, age, race, Hispanic ethnicity, education, region, population density, and phone status (cell phone-only/landline only/both and cell phone mostly). Demographic weighting targets are based on the March 2013 Current Population Survey figures for the aged 18 and older U.S. population. Phone status targets are based on the January-June 2013 National Health Interview Survey. Population density targets are based on the 2010 census. All reported margins of sampling error include the computed design effects for weighting.

In addition to sampling error, question wording and practical difficulties in conducting surveys can introduce error or bias into the findings of public opinion polls.

18. Next, I'm going to read you a list of issues. Regardless of whether or not you think it should be legal, for each one, please tell me whether you personally believe that in general it is morally acceptable or morally wrong. How about -- [RANDOM ORDER]?

<i>2014 May 8-11</i> <i>(sorted by "morally acceptable")</i>	Morally acceptable	Morally wrong
Birth control	90	7
Divorce	69	22
Sex between an unmarried man and woman	66	31
Medical research using stem cells obtained from human embryos	65	27
Gambling	62	33
The death penalty	61	30
Buying and wearing clothing made of animal fur	58	37
Having a baby outside of marriage	58	38
Gay or lesbian relations	58	38
Medical testing on animals	57	38
Doctor assisted suicide	52	43
Abortion	42	48
Cloning animals	34	60
Pornography	33	64
Sex between teenagers	30	64
Suicide	19	74
Polygamy, when a married person has more than one spouse at the same time	14	84
Cloning humans	13	83
Married men and women having an affair	7	91

FULL TRENDS: MORAL ACCEPTABILITY
