# GALLUP POLL SOCIAL SERIES: MOOD OF THE NATION 

-- FINAL TOPLINE --

Timberline: 937008
IS: 642
Princeton Job \#: 16-01-001

Jeff Jones, Lydia Saad
January 6-10, 2016

Results are based on telephone interviews conducted January 6-10, 2016 with a random sample of $\mathbf{- 1 , 0 1 2}$ adults, aged 18+, living in all 50 U.S. states and the District of Columbia. For results based on this sample of national adults, the margin of sampling error is $\pm 4$ percentage points at the $95 \%$ confidence level.

Interviews are conducted with respondents on landline telephones and cellular phones, with interviews conducted in Spanish for respondents who are primarily Spanish-speaking. Each sample of national adults includes a minimum quota of $60 \%$ cell phone respondents and $\mathbf{4 0 \%}$ landline respondents, with additional minimum quotas by region. Landline and cell phone telephone numbers are selected using random digit dial methods. Landline respondents are chosen at random within each household on the basis of which member had the most recent birthday.

Samples are weighted to correct for unequal selection probability, non-response, and double coverage of landline and cell users in the two sampling frames. They are also weighted to match the national demographics of gender, age, race, Hispanic ethnicity, education, region, population density, and phone status (cell phoneonly/landline only/both and cell phone mostly). Demographic weighting targets are based on the March 2015 Current Population Survey figures for the aged 18 and older U.S. population. Phone status targets are based on the January-June 2015 National Health Interview Survey. Population density targets are based on the 2010 census. All reported margins of sampling error include the computed design effects for weighting.

In addition to sampling error, question wording and practical difficulties in conducting surveys can introduce error or bias into the findings of public opinion polls.
10. Next, we are interested in how people's financial situation may have changed. Would you say that you are financially better off now than you were a year ago, or are you financially worse off now?

|  | Better off | Worse off | $\begin{aligned} & \text { Same } \\ & \text { (vol.) } \end{aligned}$ | No opinion |  | Better off | Worse off | Same (vol.) | No opinion |
