ECONOMY AND PERSONAL FINANCE**

-- FINAL TOPLINE --

Timberline: 937008
IS: 705
Princeton Job #: 16-04-005

Jeff Jones, Lydia Saad
April 6-10, 2016

Results are based on telephone interviews conducted April 6-10, 2016 with a random sample of **~1,015**—adults, aged 18+, living in all 50 U.S. states and the District of Columbia. For results based on this sample of national adults, the margin of sampling error is **±4** percentage points at the 95% confidence level.

For results based on the sample of **~525**-- adults employed full- or part-time, the margin of sampling error is **±5** percentage points.

For results based on the sample of **~617**-- stock owners, the margin of sampling error is **±5** percentage points.

For results based on the sample of **~337**-- retirees, the margin of sampling error is **±7** percentage points.

For results based on the sample of **~678**-- non-retirees, the margin of sampling error is **±5** percentage points.

For results based on the sample of **~687**-- homeowners, the margin of sampling error is **±5** percentage points.

Interviews are conducted with respondents on landline telephones and cellular phones, with interviews conducted in Spanish for respondents who are primarily Spanish-speaking. Each sample of national adults includes a minimum quota of 60% cell phone respondents and 40% landline respondents, with additional minimum quotas by region. Landline and cell phone telephone numbers are selected using random digit dial methods. Landline respondents are chosen at random within each household on the basis of which member has the next birthday.

Samples are weighted to correct for unequal selection probability, non-response, and double coverage of landline and cell users in the two sampling frames. They are also weighted to match the national demographics of gender, age, race, Hispanic ethnicity, education, region, population density, and phone status (cell phone-only/landline only/both and cell phone mostly). Demographic weighting targets are based on the March 2015 Current Population Survey figures for the aged 18 and older U.S. population. Phone status targets are based on the January-June 2015 National Health Interview Survey. Population density targets are based on the 2010 census. All reported margins of sampling error include the computed design effects for weighting.

In addition to sampling error, question wording and practical difficulties in conducting surveys can introduce error or bias into the findings of public opinion polls.

17. Next, please tell me how concerned you are right now about each of the following financial matters, based on your current financial situation -- are you very worried, moderately worried, not too worried, or not worried at all. If a particular item does not apply to you, please say so. First, how worried are you about-- [ITEMS A-G ROTATED, ITEM H READ LAST]?

<i>2016 Apr 6-10</i> <i>(sorted by "total worried")</i>	Very worried	Mod-erately worried	Total Worried	Total Not worried
Not having enough money for retirement	33	31	64	32
Not being able to pay medical costs of a serious illness/accident	35	25	60	38
Not being able to maintain the standard of living you enjoy	20	31	51	47
Not being able to pay medical costs for normal health care	24	21	45	53
Not having enough to pay your normal monthly bills	18	23	41	58
Not having enough money to pay for your children's college	23	14	37	30
Not being able to pay your rent, mortgage or other housing costs	17	17	34	61
Not being able to make the minimum payments on your credit cards	10	11	21	65

FINANCIAL WORRY TRENDS:
