JT: 274
Princeton Job #: 19-03-005

Jeff Jones, Lydia Saad
March 1-10, 2019

Results are based on telephone interviews conducted March 1-10, 2019 with a random sample of **-1,039—adults**, ages 18+, living in all 50 U.S. states and the District of Columbia. For results based on this sample of national adults, the margin of sampling error is **±4 percentage points** at the 95% confidence level.

For results based on the sample of **-538—national adults in Form A**, the margin of sampling error is **±5 percentage points**.

For results based on the sample of **-501—national adults in Form B**, the margins of sampling error is **±5 percentage points**.

Interviews are conducted with respondents on landline telephones and cellular phones, with interviews conducted in Spanish for respondents who are primarily Spanish-speaking. Each sample of national adults includes a minimum quota of 70% cell phone respondents and 30% landline respondents, with additional minimum quotas by time zone within region. Landline and cell phone telephone numbers are selected using random digit dial methods. Gallup obtained sample for this study from Survey Sampling International. Landline respondents are chosen at random within each household on the basis of which member has the next birthday.

Samples are weighted to correct for unequal selection probability, non-response, and double coverage of landline and cell users in the two sampling frames. They are also weighted to match the national demographics of gender, age, race, Hispanic ethnicity, education, region, population density, and phone status (cell phone-only/landline only/both and cell phone mostly). Demographic weighting targets are based on the March 2018 Current Population Survey figures for the aged 18 and older U.S. population. Phone status targets are based on the January-June 2018 National Health Interview Survey. Population density targets are based on the 2010 census. All reported margins of sampling error include the computed design effects for weighting.

In addition to sampling error, question wording and practical difficulties in conducting surveys can introduce error or bias into the findings of public opinion polls. For questions about how this survey was conducted, please contact galluphelp@gallup.com.

8. Next, I'm going to read a list of problems facing the country. For each one, please tell me if you personally worry about this problem a great deal, a fair amount, only a little, or not at all? First, how much do you personally worry about -- [RANDOM ORDER]?

<i>2019 Mar 1-10 (sorted by "a great deal")</i>	Great deal	Fair amount	Only a little/ not at all
The availability and affordability of health care	55	25	21
Federal spending and the budget deficit	50	30	20
Hunger and homelessness	49	30	20
Drug use	47	26	27
Crime and violence	47	28	25
The quality of the environment	47	27	26
The way income and wealth are distributed in the U.S.	44	23	33
The availability of guns	41	20	39
The Social Security system	41	26	33
Race relations	40	26	34
Illegal immigration	36	18	45
The possibility of future terrorist attacks in the U.S.	33	27	40
The economy	33	34	33
The availability and affordability of energy	28	29	43
Unemployment	23	28	49
