**GALLUP POLL SOCIAL SERIES:
HEALTH AND HEALTHCARE**

-- FINAL TOPLINE --

Timberline: 937008
JT: 332
Princeton Job #: 19-11-020

Jeff Jones, Lydia Saad
November 1-14, 2019

Results are based on telephone interviews conducted November 1-14, 2019 with a random sample of **~1,015—** adults, ages 18+, living in all 50 U.S. states and the District of Columbia. For results based on this sample of national adults, the margin of sampling error is ± 4 percentage points at the 95% confidence level.

Interviews are conducted with respondents on landline telephones and cellular phones, with interviews conducted in Spanish for respondents who are primarily Spanish-speaking. Each sample of national adults includes a minimum quota of 70% cell phone respondents and 30% landline respondents, with additional minimum quotas by time zone within region. Landline and cell phone telephone numbers are selected using random digit dial methods. Gallup obtained sample for this study from Dynata. Landline respondents are chosen at random within each household on the basis of which member has the next birthday.

Samples are weighted to correct for unequal selection probability, non-response, and double coverage of landline and cell users in the two sampling frames. They are also weighted to match the national demographics of gender, age, race, Hispanic ethnicity, education, region, population density, and phone status (cell phone-only/landline only/both and cell phone mostly). Demographic weighting targets are based on the March 2018 Current Population Survey figures for the aged 18 and older U.S. population. Phone status targets are based on the January-June 2018 National Health Interview Survey. Population density targets are based on the 2010 census. All reported margins of sampling error include the computed design effects for weighting.

In addition to sampling error, question wording and practical difficulties in conducting surveys can introduce error or bias into the findings of public opinion polls. For questions about how this survey was conducted, please contact galluphelp@gallup.com.

22. Please indicate if you currently – [RANDOM ORDER], if you have done this in the past but no longer do, or if you have never done this.

A. Wear a fitness tracker such as a FitBit or smartwatch

	Currently <u>do</u>	Have done <u>in past</u>	Have never <u>done</u>	No <u>opinion</u>
2019 Nov 1-14	19	15	66	1

B. Track your health statistics using an app on your smartphone or tablet

	Currently <u>do</u>	Have done <u>in past</u>	Have never <u>done</u>	No <u>opinion</u>
2019 Nov 1-14	19	13	67	1

23. *(Asked of those who have done the activities)* Have you found that – [RANDOM ORDER] -- has been very helpful, somewhat helpful, not very helpful, or not at all helpful in reaching your health goals?

A. Wearing a fitness tracker such as a FitBit or smartwatch

<i>2019 Nov 1-14</i>	Very <u>helpful</u>	Somewhat <u>helpful</u>	Not very <u>helpful</u>	Not at all <u>helpful</u>	Never <u>done</u>	No <u>opinion</u>
Used fitness tracker ^	30	46	16	8	--	--
<i>National adults</i>	10	16	5	3	66	1

^ Based on – 322 – national adults who have used a fitness tracker; ±7 PCT PTS

B. Tracking your health statistics using an app

<i>2019 Nov 1-14</i>	Very <u>helpful</u>	Somewhat <u>helpful</u>	Not very <u>helpful</u>	Not at all <u>helpful</u>	Never <u>done</u>	No <u>opinion</u>
Tracked health stats ^	29	53	13	5	--	--
<i>National adults</i>	9	17	4	2	67	1

^ Based on – 314 – national adults who have tracked their health statistics on an app; ±7 PCT PTS
