## DECEMBER WAVE ONE

-- FINAL TOPLINE --

Timberline: 937008  
JT: 335  
Princeton Job #: 19-12-021

Jeff Jones, Lydia Saad  
December 2-15, 2019

---

Results are based on telephone interviews conducted December 2-15, 2019 with a random sample of –1,025—adults, ages 18+, living in all 50 U.S. states and the District of Columbia. For results based on this sample of national adults, the margin of sampling error is  $\pm 4$  percentage points at the 95% confidence level.

For results based on the sample of –489—national adults in Form A, the margins of sampling error is  $\pm 5$  percentage points.

For results based on the sample of –536—national adults in Form B, the margins of sampling error is  $\pm 5$  percentage points.

Interviews are conducted with respondents on landline telephones and cellular phones, with interviews conducted in Spanish for respondents who are primarily Spanish-speaking. Each sample of national adults includes a minimum quota of 70% cell phone respondents and 30% landline respondents, with additional minimum quotas by time zone within region. Landline and cell phone telephone numbers are selected using random digit dial methods. Gallup obtained sample for this study from Dynata. Landline respondents are chosen at random within each household on the basis of which member has the next birthday.

Samples are weighted to correct for unequal selection probability, non-response, and double coverage of landline and cell users in the two sampling frames. They are also weighted to match the national demographics of gender, age, race, Hispanic ethnicity, education, region, population density, and phone status (cell phone-only/landline only/both and cell phone mostly). Demographic weighting targets are based on the March 2018 Current Population Survey figures for the aged 18 and older U.S. population. Phone status targets are based on the January-June 2018 National Health Interview Survey. Population density targets are based on the 2010 census. All reported margins of sampling error include the computed design effects for weighting.

In addition to sampling error, question wording and practical difficulties in conducting surveys can introduce error or bias into the findings of public opinion polls. For questions about how this survey was conducted, please contact [galluphelp@gallup.com](mailto:galluphelp@gallup.com).

^ Gallup/Newsweek

12. Next we have some questions about the allegations being reported in the news concerning President Trump. Based on what you know at this point, do you think that Donald Trump should or should not be impeached and removed from office?

	<u>Yes, should be</u>	<u>No, should not be</u>	<u>No opinion</u>

^ WORDING: Based on what you know about Robert Mueller's investigation into Donald Trump's activities, do you think that Donald Trump should or should not be impeached and removed from office?

**For comparison (Bill Clinton):** *Based on what you know at this point (about the Ken Starr investigation into the Monica Lewinsky matter), do you think that Bill Clinton should or should not be impeached and removed from office?*

	<u>Yes, should be</u>	<u>No, should not be</u>	<u>No opinion</u>

1998 Jun 5-7	19	77	4

**For comparison (Richard Nixon):** *(Impeachment, as you probably know, involves the following: First, the Lower House -- that is, the U.S. House of Representatives -- must decide whether there is enough evidence to bring a President to trial before the Senate. If the House of Representatives decides that there is enough evidence, the Senate then conducts a trial to determine whether or not the President's actions are serious enough to warrant his being removed from the Presidency. Now, let me ask you first of all, if you think there is enough evidence of possible wrongdoing in the case of President Nixon to bring him to trial before the Senate, or not?) Just from the way you feel now, do you think his actions are serious enough to warrant his being removed from the Presidency, or not?*

	<u>Yes, serious enough</u>	<u>No, not serious enough</u>	<u>No opinion</u>
