WORK AND EDUCATION**

-- FINAL TOPLINE --

Timberline: 937614
JT: 394
Princeton Job #: 20-08-014

July 30-August 12, 2020

Results are based on telephone interviews conducted July 30-August 12, 2020 with a random sample of –1,031— adults, ages 18+, living in all 50 U.S. states and the District of Columbia. For results based on this sample of national adults, the margin of sampling error is ± 4 percentage points at the 95% confidence level.

For results based on the samples of –912—registered voters, the maximum margin of sampling error is ± 4 percentage points.

For results based on the sample of –449—Republicans and Republican-leaning independents, the maximum margin of sampling error is ± 6 percentage points.

For results based on the sample of –497— Democrats and Democratic-leaning independents, the maximum margin of sampling error is ± 6 percentage points.

Interviews are conducted with respondents on landline telephones and cellular phones, with interviews conducted in Spanish for respondents who are primarily Spanish-speaking. Each sample of national adults includes a minimum quota of 70% cell phone respondents and 30% landline respondents, with additional minimum quotas by time zone within region. Landline and cell phone telephone numbers are selected using random digit dial methods. Gallup obtained sample for this study from Dynata. Landline respondents are chosen at random within each household on the basis of which member has the next birthday.

Samples are weighted to correct for unequal selection probability, non-response, and double coverage of landline and cell users in the two sampling frames. They are also weighted to match the national demographics of gender, age, race, Hispanic ethnicity, education, region, population density, and phone status (cell phone-only/landline only/both and cell phone mostly). Demographic weighting targets are based on the March 2018 Current Population Survey figures for the aged 18 and older U.S. population. Phone status targets are based on the January-June 2019 National Health Interview Survey. Population density targets are based on the 2010 census. All reported margins of sampling error include the computed design effects for weighting.

In addition to sampling error, question wording and practical difficulties in conducting surveys can introduce error or bias into the findings of public opinion polls. For questions about how this survey was conducted, please contact galluphelp@gallup.com.

Next, we have some questions about the 2020 election,

22. How much thought have you given to the upcoming election for president -- quite a lot, or only a little?

	Quite <u>a lot</u>	SOME <u>(vol.)</u>	Only <u>a little</u>	<u>None</u>	No <u>opinion</u>
2020 Jul 30-Aug 12	71	1	26	2	*
2020 Apr 14-28	59	2	35	4	*
2020 Feb 17-28	67	1	30	2	1
2020 Jan 16-29	61	3	35	1	*
2019 Sep 16-30	61	2	34	3	1
2019 Aug 15-30	59	3	35	3	*

For comparison: *August of Previous Election Years*

	Quite <u>a lot</u>	SOME <u>(vol.)</u>	Only <u>a little</u>	<u>None</u>	No <u>opinion</u>
2012 Aug 20-22	67	4	26	2	2
2008 Aug 21-23	74	3	19	3	1
2004 Aug 23-25	71	4	22	3	*
2004 Aug 9-11	68	5	25	2	*
2004 Jul 30-Aug 1	73	3	22	2	*
