Results are based on telephone interviews conducted August 31-September 13, 2020 with a random sample of 1,019 adults, ages 18+, living in all 50 U.S. states and the District of Columbia. For results based on this sample of national adults, the margin of sampling error is ±4 percentage points at the 95% confidence level.

For results based on the samples of 478 adults in Form A, the maximum margin of sampling error is ±6 percentage points.

For results based on the samples of 541 adults in Form B, the maximum margin of sampling error is ±5 percentage points.

Interviews are conducted with respondents on landline telephones and cellular phones, with interviews conducted in Spanish for respondents who are primarily Spanish-speaking. Each sample of national adults includes a minimum quota of 70% cell phone respondents and 30% landline respondents, with additional minimum quotas by time zone within region. Landline and cell phone telephone numbers are selected using random digit dial methods. Gallup obtained sample for this study from Dynata. Landline respondents are chosen at random within each household on the basis of which member has the next birthday.

Samples are weighted to correct for unequal selection probability, non-response, and double coverage of landline and cell users in the two sampling frames. They are also weighted to match the national demographics of gender, age, race, Hispanic ethnicity, education, region, population density, and phone status (cell phone-only/landline only/both and cell phone mostly). Demographic weighting targets are based on the March 2018 Current Population Survey figures for the aged 18 and older U.S. population. Phone status targets are based on the January-June 2019 National Health Interview Survey. Population density targets are based on the 2010 census. All reported margins of sampling error include the computed design effects for weighting.

In addition to sampling error, question wording and practical difficulties in conducting surveys can introduce error or bias into the findings of public opinion polls. For questions about how this survey was conducted, please contact galluphelp@gallup.com.
Now I'd like to ask you several questions about our governmental system. First, how much trust and confidence do you have in our federal government in Washington when it comes to handling [ITEMS READ IN ORDER] -- a great deal, a fair amount, not very much, or none at all?

A. International Problems

11. As you know, our federal government is made up of three branches: an Executive branch, headed by the President; a Judicial branch, headed by the U.S. Supreme Court; and a Legislative branch, made up of the U.S. Senate and House of Representatives. First, let me ask you how much trust and confidence you have at this time in the Executive branch headed by the President, the Judicial branch headed by the US Supreme Court, and the Legislative branch, consisting of the US Senate and House of Representatives--a great deal, a fair amount, not very much, or none at all?

A. The Executive branch headed by the President

^ Asked of a half sample.
16. More generally, how much trust and confidence do you have in the American people as a whole when it comes to making judgments under our democratic system about the issues facing our country -- a great deal, a fair amount, not very much, or none at all?
