### FINAL PRESIDENTIAL PRE-ELECTION POLL

-- FINAL TOPLINE --

Timberline: 937614  
T: 407  
Princeton Job #: 20-10-018

October 16-27, 2020

---

Results are based on telephone interviews conducted October 16-27, 2020 with a random sample of **–1,018—** adults, ages 18+, living in all 50 U.S. states and the District of Columbia. For results based on this sample of national adults, the margin of sampling error is **±4** percentage points at the **95%** confidence level.

For results based on the samples of **–924—** registered voters, the maximum margin of sampling error is **±4** percentage points.

Results for likely voters are based on the subsample of **–833—** survey respondents deemed most likely to vote in the November 2020 General Election, according to a series of questions measuring current voting intentions and past voting behavior. For results based on the total sample of likely voters, one can say with **95%** confidence that the margin of sampling error is **±4** percentage points.

Interviews are conducted with respondents on landline telephones and cellular phones, with interviews conducted in Spanish for respondents who are primarily Spanish-speaking. Each sample of national adults includes a minimum quota of **70%** cell phone respondents and **30%** landline respondents, with additional minimum quotas by time zone within region. Landline and cell phone telephone numbers are selected using random digit dial methods. Gallup obtained sample for this study from Dynata. Landline respondents are chosen at random within each household on the basis of which member has the next birthday.

Samples are weighted to correct for unequal selection probability, non-response, and double coverage of landline and cell users in the two sampling frames. They are also weighted to match the national demographics of gender, age, race, Hispanic ethnicity, education, region, population density, and phone status (cell phone-only/landline only/both and cell phone mostly). Demographic weighting targets are based on the March 2019 Current Population Survey figures for the aged 18 and older U.S. population. Phone status targets are based on the January-June 2019 National Health Interview Survey. Population density targets are based on the 2010 census. All reported margins of sampling error include the computed design effects for weighting.

In addition to sampling error, question wording and practical difficulties in conducting surveys can introduce error or bias into the findings of public opinion polls. For questions about how this survey was conducted, please contact [galluphelp@gallup.com](mailto:galluphelp@gallup.com).

---

First,

1. How much thought have you given to the upcoming election for president -- quite a lot, or only a little?

	<u>Quite a lot</u>	<u>SOME (vol.)</u>	<u>Only a little</u>	<u>None</u>	<u>No opinion</u>
