Princeton Job #: 24-02-002

February 1-20, 2024

Results are based on telephone interviews conducted February 1-20, 2024, with a random sample of –1,016—adults, ages 18+, living in all 50 U.S. states and the District of Columbia. For results based on this sample of national adults, the margin of sampling error is ± 4 percentage points at the 95% confidence level.

For results based on the sample of -- 508 -- national adults in Form A and the sample of –508-- national adults in Form B, the margin of sampling error is ± 6 percentage points.

Interviews are conducted with respondents on landline telephones and cellular phones, with interviews conducted in Spanish for respondents who are primarily Spanish-speaking. Each sample of national adults includes a minimum quota of 80% cell phone respondents and 20% landline respondents, with additional minimum quotas by time zone within region. Landline and cell phone telephone numbers are selected using random digit dial methods. Landline respondents are chosen at random within each household on the basis of which member has the next birthday.

Samples are weighted to correct for unequal selection probability, non-response, and double coverage of landline and cell users in the two sampling frames. They are also weighted to match the national demographics of gender, age, race, Hispanic ethnicity, education, region, population density, and phone status (cell phone-only/landline only/both and cell phone mostly). Demographic weighting targets are based on the most recent Current Population Survey figures for the aged 18 and older U.S. population. Phone status targets are based on the most recent National Health Interview Survey. Population density targets are based on the 2020 census. All reported margins of sampling error include the computed design effects for weighting.

In addition to sampling error, question wording and practical difficulties in conducting surveys can introduce error or bias into the findings of public opinion polls. For questions about how this survey was conducted, please contact galluphelp@gallup.com.

Now thinking about the United Nations,

15. Do you think the United Nations is doing a good job or a poor job in trying to solve the problems it has had to face?

	<u>Good job</u>	<u>Poor job</u>	<u>No opinion</u>

^ Asked of a half sample.

† Asked on Gallup Daily tracking survey.

25. Do you feel the U.S. should increase its commitment to NATO, keep its commitment what it is now, decrease its commitment but still remain in NATO, or withdraw from NATO entirely?

	<u>Increase commitment</u>	<u>Keep what it is now</u>	<u>Decrease commitment</u>	<u>Withdraw entirely</u>	<u>No opinion</u>

For comparison: *Some people feel that NATO, (North Atlantic Treaty Organization) the military organization of Western Europe and the United States, has outlived its usefulness, and that the United States should withdraw militarily from NATO. Others say that NATO still has a function in preserving peace in Europe. Do you feel we should increase our commitment to NATO, keep our commitment what it is now, decrease our commitment but still remain in NATO, or withdraw from NATO entirely?*

	<u>Increase commitment</u>	<u>Keep what it is now</u>	<u>Decrease commitment</u>	<u>Withdraw entirely</u>	<u>No opinion</u>
