GAL 044
Princeton Job #: 25-03-004

March 3-16, 2025

Results are based on telephone interviews conducted March 3-16, 2025, with a random sample of –1,002— adults, ages 18+, living in all 50 U.S. states and the District of Columbia. For results based on this sample of national adults, the margin of sampling error is ± 4 percentage points at the 95% confidence level.

For results based on the sample of -- 502 -- national adults in Form A and the sample of –500-- national adults in Form B, the margin of sampling error is ± 6 percentage points.

Interviews are conducted with respondents on landline telephones and cellular phones, with interviews conducted in Spanish for respondents who are primarily Spanish-speaking. Each sample of national adults includes a minimum quota of 80% cell phone respondents and 20% landline respondents, with additional minimum quotas by time zone within region. Landline and cell phone telephone numbers are selected using random digit dial methods. Landline respondents are chosen at random within each household on the basis of which member has the next birthday.

Samples are weighted to correct for unequal selection probability, non-response, and double coverage of landline and cell users in the two sampling frames. They are also weighted to match the national demographics of gender, age, race, Hispanic ethnicity, education, region, population density, party identification, and phone status (cell phone-only/landline only/both and cell phone mostly). Demographic weighting targets are based on the most recent Current Population Survey figures for the aged 18 and older U.S. population. Phone status targets are based on the most recent National Health Interview Survey. Party identification targets are based on the average of the three prior Gallup polls. Population density targets are based on the 2020 census. All reported margins of sampling error include the computed design effects for weighting.

In addition to sampling error, question wording and practical difficulties in conducting surveys can introduce error or bias into the findings of public opinion polls. For questions about how this survey was conducted, please contact galluphelp@gallup.com.

8. Next, I'm going to read a list of problems facing the country. For each one, please tell me if you personally worry about this problem a great deal, a fair amount, only a little, or not at all? First, how much do you personally worry about -- [RANDOM ORDER]?

<i>2025 Mar 3-16</i> <i>(sorted by "a great deal")</i>	Great deal	Fair amount	Only a little/ not at all
The economy	60	27	12
The availability and affordability of health care	59	23	17
Inflation	56	29	14
Federal spending and the budget deficit	53	28	19
The Social Security system	52	24	24
Hunger and homelessness	50	29	20
The way income and wealth are distributed in the U.S.	48	24	27
The size and power of the federal government	48	28	24
Crime and violence	47	28	25
The quality of the environment	43	29	27
The possibility of future terrorist attacks in the U.S.	40	28	33
Illegal immigration	40	23	36
Drug use	39	29	32
Unemployment	36	29	35
The availability and affordability of energy	35	36	28
Race relations	33	28	39
