GALLUP POLL SOCIAL SERIES:
HEALTH AND HEALTHCARE

-- FINAL TOPLINE --

Timberline: 937614
GAL 052
Princeton Job #: 25-11-013

November 3-25, 2025

Note: The Gallup-West Health Center on Healthcare co-sponsors the GPSS Health and Healthcare survey to continue tracking the state of healthcare in America. These include Questions 9-59 (excluding Q.39-40) on the 2025 survey.

Results are based on telephone interviews conducted November 3-25, 2025, with a random sample of –1,321— adults, ages 18+, living in all 50 U.S. states and the District of Columbia. For results based on this sample of national adults, the margin of sampling error is ±3 percentage points at the 95% confidence level.

For results based on the sample of –659—national adults in Form A, the margin of sampling error is ±5 percentage points.

For results based on the sample of – 606 – women, the margin of sampling error is ±5 percentage points at the 95% confidence level.

For results based on the sample of – 704 –men, the margin of sampling error is ±5 percentage points at the 95% confidence level.

Interviews are conducted with respondents on landline telephones and cellular phones, with interviews conducted in Spanish for respondents who are primarily Spanish-speaking. Each sample of national adults includes a minimum quota of 80% cell phone respondents and 20% landline respondents, with additional minimum quotas by time zone within region. Landline and cell phone telephone numbers are selected using random digit dial methods. Landline respondents are chosen at random within each household on the basis of which member has the next birthday.

Samples are weighted to correct for unequal selection probability, non-response, and double coverage of landline and cell users in the two sampling frames. They are also weighted to match the national demographics of gender, age, race, Hispanic ethnicity, education, region, population density, party identification, and phone status (cell phone-only/landline only/both and cell phone mostly). Demographic weighting targets are based on the most recent Current Population Survey figures for the aged 18 and older U.S. population. Phone status targets are based on the most recent National Health Interview Survey. Party identification targets are based on the average of the three most recent Gallup polls. Population density targets are based on the 2020 census. All reported margins of sampling error include the computed design effects for weighting.

In addition to sampling error, question wording and practical difficulties in conducting surveys can introduce error or bias into the findings of public opinion polls. For questions about how this survey was conducted, please contact galluphelp@gallup.com.

Results for this Gallup poll are based on self-administered web surveys conducted November 3-16, 2025, with a stratified random sample of 2,068 adults, aged 18 and older, who are members of the Gallup Panel. Gallup uses probability-based, random sampling methods to recruit its Panel members.

For results based on the sample of U.S. adults, the margin of sampling error is ±3 percentage points at the 95% confidence level.

Gallup weighted the obtained sample to make it representative of the U.S. adult population on gender, age, race, Hispanic ethnicity, education, political party affiliation and region. Demographic weighting targets were based on the most recent Current Population Survey figures for the aged 18 and older U.S. population. Party affiliation weighting targets are based on an average of the three most recent Gallup telephone polls.

In addition to sampling error, question wording and practical difficulties in conducting surveys can introduce error or bias into the findings of public opinion polls.

			Party ID			
		Total	Republican	Independent	Democrat	
Q58 Do you think the federal government should or should not provide funding to hospitals to cover medical expenses for patients who don't have health insurance?						
	1 Yes, should	73%	45%	78%	93%	
	2 No, should not	25%	53%	22%	6%	
	9 No answer	1%	1%	1%	1%	
Q59 Do you think the federal government should or should not provide funding to hospitals to cover medical expenses for patients who don't have health insurance?						
	1 Yes, for all patients including people in the country illegally	33%	4%	35%	59%	
	2 Yes, but only for patients who are legal U.S. residents	51%	70%	50%	34%	
	3 No, the federal government should not do this for any patients	14%	23%	13%	6%	
	9 No answer	3%	2%	2%	2%
